Results-driven Williams College graduate with two years of financial services experience at Northwestern Mutual, seeking an Analyst role within a financial institution. Combines rigorous liberal arts training in critical thinking and communication with strong quantitative and analytical skills to evaluate data, identify trends, and support strategic decision-making.

Experience:

Northwestern Mutual, NYC

2023-2025

Financial Advisor

2024-2025

- Worked alongside financial advisors to deliver tailored private wealth management and private equity solutions to high-net-worth clients. Created detailed financial planning models using NMs proprietary tools including 401(k), Roth IRA, IRA, and brokerage simulators with inflation, cost of education, taxation, and estate planning considerations.
- Prepared marketing materials for use in client meetings (covering but not limited to financing alternatives, working capital optimization, and asset allocation analysis) ranging from proposals of asset allocation to alternative investment and fixed income vehicles to complement the overall portfolio's long-term tax exposure.
- Collaborated with senior advisors daily by preparing reports and creating financial planning models based off personal savings and portfolio strategies.
- Generated \$2M average pipeline in prospective assets under management through 250+ daily targeted outbound calls to high-net-worth clients across hedge funds, consulting, private equity, and financial institutions.
- Continued education studying the details of bonds, mutual funds, ETF's, SEC policies and laws and acts to support customers in their financial journey.

Financial Representative

2023-2024

- Created a pipeline of over 135 prospects in only 18 months. Achieved goal of acquiring more than one client a month for the first year.
- Operationalized a financial advisory practice, initiating and managing client relationships with an analytical mind, team-oriented grounded action, and the proven ability to multi-task in a fast paced-environment using Excel, Python and Adobe Photoshop to create customized packages.
- Apprenticeship under experienced CFPs on tax optimization of financial accounts through market & goal analysis, insights and visualizations into spending and saving trends, and reports on customer's long-term planning.
- Created and presented key insights to potential clients and investors using fundamental research of public company filings, primary research, and financial modeling.
- Ability to interact with integrity and professionalism with customers and employees and identify potential fraud/risk accounts and take appropriate action.

Vail Resorts

2025-2026

Professional Ski Instructor

- Using a professional background to instruct refined technical precision, individualized progression, and uncompromising standard of quality of skill and professionalism – delivering calm, confidence-building lessons reflecting Vail Resorts excellence, discretion, and world-class guest experience.

Grocery Delivery Concierge Startup Vail, CO

2018-2020

- Increased customer satisfaction scores by reducing delivery time and maximizing efficiencies, using Excel and SQL query to access data, for local Grocery Delivery Concierge Service.
- Created KPI's to drive profitability based on holiday trends on spend, by customer, demographic, and duration of stay for targeted marketing using reporting Tableau and Power BI.

Manager at Locally owned dog daycare, Vail, CO

2018-2023

- Handled day-to-day sales, client-management / engagement, cash handling, website design for the locally owned doggy daycare.

Restaurant Waiter at the Riverfront Westin, Avon CO

2018-2023

Education:

Williams College, Williamstown – MA, B.A. Philosophy & Political Science.

Graduated - 2022
